# AGILE IN HR

---

*"I've enjoyed the past two days and can take this back to work to apply in business as usual. Great networking experience too!"*

*"This workshop has inspired me to change the current state at work!"*

## LEARNING OUTCOMES

At the completion of the course, participants will have created a catalogue of practical experiments they can run in their organisations as a first step towards change and a range of tools to support implementing new ways of working and new ways of thinking. The course focuses on six main pillars:

- Organisational Structure and Leadership
- Talent Acquisition
- Performance
- Remuneration and Reward
- Employee Engagement
- Learning and Development

As each pillar is explored, practical tools are identified and discussed and participants devise realistic experiments they could run to help their organisations become more adaptive and more engaging for their people.

Click here for a complete breakdown of the course Learning Outcomes.

## SUMMARY

Designed for People (HR) professionals looking for the knowledge, tools and experiments needed to tackle new ways of thinking and working in support of increasing business agility within their organisation.
